

**GENERATION ONE & PERTH ANGELS**

# **INDIGENOUS ANGEL INVESTOR AND ENTREPRENEUR MASTERCLASS**

**The Perth Angels and Generation One, part of the Minderoo Foundation, are partnering to deliver the Indigenous Angel Investor and Entrepreneur Masterclasses, a pilot program that will empower Indigenous Australians to become Angel Investors and support Indigenous businesses to become investor-ready.**

Through education, the Masterclasses will help to address some of the barriers Indigenous Australians face in accessing investment, and in becoming investors themselves. The partnership aims to create some of the first known accredited Indigenous Angel Investors in Australia and deploy more capital into the Indigenous business sector for business growth and job creation.

If successful, these pilot Masterclasses have the potential to scale throughout Western Australia, and nationally.

**CREATING PARITY**

**IN OUR GENERATION**

## **Indigenous Angel Investor Masterclass**

We recognise the power and wealth of Indigenous people to have a seat at the investment table. While there are currently no known accredited Indigenous Angel Investors in Australia, impeded by strict legislation defining 'sophisticated investors,' we hope to break the mould through innovative education.

Through this Masterclass, aspiring Indigenous investors will learn:

- Learn key skills that are vital to Angel investing: strategy, finance, marketing, people and talent, negotiations and leadership.
- Learn strategies to invest in high growth and early stage start-ups.
- Build an alumni of Indigenous Angel Investors.
- Access coaching, guidance and mentoring from the Perth Angels.

## **Indigenous Entrepreneurs Masterclass**

This Masterclass will assist Indigenous start-ups and businesses to become equity-investor ready through a unique and informative program, facilitated by some of Australia's best investors and entrepreneurs.

Through this Masterclass, Indigenous entrepreneurs will:

- Learn key strategies to raise capital and become investor-ready.
- Meet like-minded Indigenous entrepreneurs, investors, and business leaders.
- Understand how to develop and grow a sustainable, high growth business that balances social and economic returns.

**Places are strictly limited for these pilot Masterclasses.**

**Applications open on 15 October, and close on 29 October.**
