INDIGENOUS EMPLOYMENT INDEX - QUESTIONNAIRE
Acknowledgement of Country

We would like to Acknowledge Country and the Traditional Owners of the various lands that we live and work on. We pay our respect to Elders past and present and we commit to being grounded in inclusiveness and cultural respect.

Use of term Indigenous

We have chosen to use the term Indigenous to refer to Aboriginal and Torres Strait Islander people to reflect the national scale of this research. We respect and acknowledge the diversity of communities, identities, and clan groups for all Indigenous people of Australia. While we recognise Indigenous peoples have different preferences regarding the use of terms Indigenous and Aboriginal and Torres Strait Islander, and that many may prefer to be known by their specific group name or Country, as Traditional Owner’s, or First Nation’s People, the terminology used in this project reflects a considered and deliberate approach. We have developed a research process that values Indigenous ways of knowing and being and is built on self-determination. We hope that you are comfortable with our approach to inclusive terminology.

Indigenous Employment Index

While there has been progress over recent decades when it comes to increasing Indigenous employment, a significant gap remains. An ongoing challenge to achieving parity is the lack of data and limited reporting on Indigenous employment. Without data, we cannot make informed decisions to close the employment gap. We are seeking to solve part of this challenge through the Indigenous Employment Index. Minderoo Foundation – Generation One, Murawin and the Bankwest Curtin Economics Centre (BCEC) are working together to develop this important index.

Generation One is an initiative of Andrew and Nicola Forrest’s Minderoo Foundation, committed to creating parity with and for Indigenous Australians within one generation. Generation One supports employment outcomes through partnerships that focus on training, education, and social policy reform.

Murawin is a national, Indigenous-owned consulting agency with specialty work streams across evaluation and research, strategy and policy, facilitation, and place-based engagement. Murawin is led by Carol Vale, a Dunghutti woman, and brings together a team of skilled social researchers to undertake all consultations with Aboriginal and Torres Strait Islander participants for this project.

The BCEC is an independent economic and social research organisation located within the Curtin Business School at Curtin University. The Centre was established in 2012 through the generous support of Bankwest (a division of the Commonwealth Bank of Australia), with a core mission to undertake high quality, objective research on the key economic and social issues of relevance to Western Australia.
As part of the methodology for the Indigenous Employment Index we will collect and analyse quantitative and qualitative data, the purpose of this survey is to collect the quantitative data. The survey consists of five domains each of which capture different key themes:

- **Domain 1: Commitment, governance, and reporting**
- **Domain 2: Workplace culture and leadership**
- **Domain 3: Attraction and recruitment**
- **Domain 4: Engagement, retention, and development**
- **Domain 5: Indigenous community engagement**

**Tips on taking the online surveys:**

Domain 1: Commitment, Governance and Reporting

What is the name of the respondent?

What is the title of the respondent?

What is the email address of the respondent?

Sub-domain: Policies and strategies

Indicator name: Diversity and Inclusion Strategy

1. Does your organisation have a Diversity & Inclusion strategy?

Diversity refers to the mix of people in an organisation. Inclusion refers to getting the mix of people in an organisation to work together to improve performance and wellbeing. Inclusion in a workplace is achieved when a diversity of people (e.g., ages, cultural backgrounds, genders, perspectives) feel that they are respected, connected, contributing their perspectives and talents to the workplace and progressing in their career at work (i.e. have equal access to opportunities and resources).

A strategy is a plan of action designed to achieve one or more of an organisation’s objectives. Strategies fill the gap between “where we are” and “where we want to be”, that is, “how are we going to get there?” They relate to how an organisation allocates and uses materials and human resources and require an executive decision.
